CERTIFICATION POLICY

1. Preamble

- 1.a. The purpose of this document is to communicate the **Certification Policy** of the Certification Body **ISONIKE** which in turn set out the **Certification Agreement** between ISONIKE and the Client.
- 1.b. All Clients are required to review the present document and submit their '**Application for Certification**' only if they agree to comply with the terms stated in the present Certification Policy
- 1.c. Once an '**Application for Certification**' is submitted by a Client, the Client irrevocably commits to comply with this Certification Policy and the Certification Agreement it sets out.

2. Introduction

- 2.a. ISONIKE Ltd (hereinafter mentioned as 'ISONIKE') is a private and independent company that provides independent audit and certification services.
- 2.b. The present Certification Policy has been prepared in accordance with the Accreditation Requirements set out in the various Accreditation Standards (e.g. ISO/IEC 17021-1) and against the criteria for competence they set out. This Policy applies also to the certification outside accredited schemes.
- 2.c. ISONIKE is operating in accordance with the aforementioned accreditation requirements. On this respect, ISONIKE is the process of applying for accreditation to an Accreditation Body full member of the IAF EA MLA. Until the accreditation process is completed, ISONIKE will be providing unaccredited certificates for all schemes.
- 2.d. Certification of a management system is restricted to the management system of the client only. It is not a statement by the certification body that implies the product or service meets specified requirements.
- 2.e. Certification refers to ISONIKE only and does not include certifications with any other Organization or other Certification Body.
- 2.f. ISONIKE is fully committed to Anti-Corruption and Anti-Bribery principles and has appropriate controls in place for the avoidance of incidents. Whistleblowing to the impartiality committee is strongly encouraged
- 2.g. ISONIKE is not involved with or offer consultancy to Certification Clients.

3. Scope of the Certification Policy

- 3.a. ISONIKE is a Certification Body that provides Certification Services to organizations, firms or companies (each a "Client").
- 3.b. ISONIKE may provide its services directly or, in its absolute discretion, through (a) its own employees, (b) any ISONIKE affiliated company or (c) any other person or organization, as may be entrusted by ISONIKE. Where part of the work is subcontracted to others, ISONIKE retains full responsibility for granting certification, maintaining certification, expanding or reducing the scope of certification, renewing, suspending or restoring, or withdrawing of certification and for ensuring that properly documented agreements are in place.
- 3.c. The Certification Body will notify its clients of any changes to the requirements for certification within a reasonable timeframe.
- 3.d. The client agrees to supply willing fully and freely all the necessary information to ISONIKE as required by the individual schemes.

4. Personnel, Confidentiality and Impartiality

- 4.a. ISONIKE undertakes to provide suitably competent personnel, with ethos and integrity for all audits using its own staff or competent subcontractors.
- 4.b. Prior to engagement with any certification operations or audits, all members of ISONIKE (employees and subcontractors) are required to sign Non-Disclosure (i.e. confidentiality) agreement and impartiality statement.

CERTIFICATION POLICY

- 4.c. By means of the Non-Disclosure Agreements, the members of ISONIKE fully commit themselves to keep confidential all the information obtained during the Certification Process. To this effect, all documented information, reports and records produced as part of the audit process will remain confidential, only available to ISONIKE and the relevant Accreditation Body. Accreditation Bodies are also committed to confidentiality.
- 4.d. By means of the impartiality statement and code of ethics, the members of ISONIKE fully commit themselves to be impartial, declare any conflict prior to the audit, and actively support the ethos, anti-corruption and anti-bribery commitments of ISONIKE Ltd.
- 4.e. It is a condition of the Certification Policy that the certification process is conducted in an independent and impartial manner. **The client and the client's representative are therefore required to declare and report directly to the Impartiality Committee of ISONIKE HQ any link or relationship (commercial or personal) exists between themselves and ISONIKE members involved in the audit activities which may threaten the impartiality or independence of the certification process.**

5. Organizational Structure

- 5.a. A copy of the organization chart of ISONIKE, showing the responsibility and reporting structure of the organization, and documentation identifying the legal status of the Certification Body are available on request.

6. Application for Certification.

- 6.a. The prospective Client will need to submit a **'Questionnaire'** to ISONIKE. The prospective Client will need to record all the required information on the **'Questionnaire'**.
Note: For particular schemes (e.g. ISO 27001) the **'Questionnaire'** may also be accompanied by **'Supplement to Questionnaire'** that also need to be completed by the client
- 6.b. On receiving a completed **'Questionnaire'** (and **'Supplement to Questionnaire'** as applicable) from the prospective Client, ISONIKE will conduct an **Application Review**, prepare and send to Applicant a **'Quotation'**. Quotations detail the audit cost for the Initial Certification Audit and each Surveillance Audit required for the Certification Cycle (3 year period – unless otherwise defined by sector schemes).
- 6.c. On acceptance of this Quotation the Client will complete the **'Application for Certification'** form and submit it to ISONIKE (Note: Clients should submit the 'Application for Certification' only when they agree and accept to comply with the present Certification Policy). ISONIKE will then invoice the client and send the Invoice for settlement to the client.
- 6.d. ISONIKE reserves the right to amend the **'Quotation'** in the event that the information (as written on the **'Questionnaire'**) change.
- 6.e. Once the **'Application for Certification'** is submitted by the Client, the Certification Body and Client have a **Certification Agreement** on the basis of the present **Certification Policy**
- 6.f. The certification project will then be allocated to a suitable audit team leader who will be the certification project manager and will make all necessary arrangements for the audit team to carry out the audit in line with ISONIKE's procedures and terms of accreditation as applicable.
- 6.g. Sufficient time before each audit, ISONIKE communicates to the client the name of and, when requested, make available background information on each member of the audit team. This is provided with sufficient time for the client to object to the appointment of any particular audit team member and for ISONIKE to reconstitute the team in response to any valid objection.

7. Audit Method

- 7.a. ISONIKE develops and communicates to the Client audit programs and audit plans prior to each audit.
- 7.b. ISONIKE will co-ordinate with the Client the dates for the conduct of the Certification Audit (Initial Audit).
- 7.c. The **Certification Audit** is carried out in three main stages (Note: the third stage is not always required):

CERTIFICATION POLICY

- The **Stage 1 Audit** is designed to demonstrate that the client has a management system that meets the requirements of the appropriate standard. It will normally involve an on-site review of the documentation, a limited audit of some of the management processes (if available) and development of a plan for the Stage 2 audit. A full report will be given to the client and a date will be agreed for the Stage 2 audit. In exceptional circumstances this process may be conducted at ISONIKE's offices.
 - The **Stage 2 Audit** is carried out on-site at the client's premises and will determine that the client has fully implemented the management system and that they meet the requirements of the appropriate standards or specifications (including relevant legislation).
 - The **Follow Up** audit, is an additional audit that may be required to confirm the effective Corrective Actions taken and implemented for rectifying Nonconformities that were raised during the previous two stages.
- 7.d. Following Certification, ISONIKE must be informed if any circumstances occur which significantly affect the registration. ISONIKE reserves the right to **re-audit** if necessary.

8. Certification

- 8.a. On successful completion of all the processes up to and inclusive the Stage 2 Audit, the audit team submits a full report to ISONIKE HQ.
- 8.b. On receiving a report containing the positive recommendation of the audit team and confirming that the client's management system is meeting the requirements of the relevant standards or specifications, the report will be reviewed together with supporting documentation by a suitably qualified and authorized member(s) of ISONIKE's technical management. Upon successful review, this member(s) will, if agreeing with the recommendation, takes the Certification decision on behalf of ISONIKE.
- 8.c. ISONIKE reserves the right to delay or postpone its decision on certification in order to take proper account of new or additional information if / as deemed necessary for taking the certification decision.
- 8.d. Once ISONIKE is satisfied that the Client meets all the Certification Requirements, a positive Certification Decision is taken, and the issuance of a **Certificate** (with the Certification Number and Certification Scope) is authorized.
- 8.e. Issued Certificates are sent to Client.
- 8.f. The main details of certificates issued are published information (see later section on 'Publicity')
- 8.g. The certificate and the audit reports remain property of ISONIKE.
- 8.h. The certificate is normally valid for a period of 3 years (referred to a Certification Cycle) . This validity can be changed in cases where:
- The accreditation standard / sector scheme requires different validity (e.g. FSC standards requires 5 years validity)
 - There is a good reason (at the absolute discretion of ISONIKE) to limit the validity to a smaller period. Note: The minimum validity of a certificate is 12 months.
 - There is good reason to Suspend, Reduce the Scope or Withdraw the Certificate.
- 8.i. The status and validity of each Certificate can be checked online by any third party using the QR Code via the ISONIKE database or website.

9. Maintenance of Certification, Surveillance and Recertification Visits.

- 9.a. Following the issuance of a Certificate, ISONIKE maintains certification based on demonstration that the client continues to satisfy the requirements of the management system standard.
- 9.b. A condition for the Client to maintain the Certification for the full certificate's period (normally 3 years) is that audit visits (**Surveillance audits**) shall be carried out at the Client's premises at least once per year (in periods not exceeding 12 months). Surveillance audits are on-site auditing of the certified client's management system's fulfilment of specified requirements with respect to the standard to which the certification is granted. These shall cover aspects of the

CERTIFICATION POLICY

management system elements, documentation, company's processes depending on the type of certification services provided, at the discretion of the audit team leader. The Client shall give access to all sites and areas for surveillance purposes whenever deemed necessary.

- 9.c. The costs of the Surveillance audits are included in the initial Quotation The Client agrees to meet the costs of the Surveillance audits.
- 9.d. Further visits and unannounced visits may be carried out if areas of concern are identified. The client agrees to meet the extra costs relating to such increased visits if required.
- 9.e. The Client shall maintain a register recording all customer complaints and security or safety-related incidents reported by an enforcing authority or users relating to those covered by the Certificate and make this available to the Certification Body on request.
- 9.f. The Client shall maintain the respective corrective actions for all customer complaints and security or safety-related incidents and make this available to the Certification Body on request.
- 9.g. The Client shall be informed of the results of each surveillance visit.
- 9.h. To extend the Certification beyond the 3 year period (i.e. for a new certification cycle), a **Recertification** audit is required covering the next 3 year period. On this respect, ISONIKE will send a new Quotation to the Client.
- 9.i. It is an accreditation requirement that at recertification, all non-conformities are suitably addressed before expiry of the existing certificate. It is required therefore that planning of recertification audits shall allow sufficient time for the client to address nonconformities and for ISONIKE to review and accept these actions prior to expiration of certification.
